\* For the 7 year term, rates are guaranteed for the surrender charge period. Any premiums and Contract Value allocated to these Interest Options cannot be moved out of or into another Interest Option during the Initial Guarantee Period, which is the surrender charge period of the contract. **Rates are NOT guaranteed for the 9-year term.**

Rates and caps are subject to change at any time. For inbound 1035 exchanges and direct transfers, rates are locked for 60 calendar days from the date the application is received; the contract will be issued with the better of those in effect on the date the application or funds are received. For all other cases, rates are locked for 14 calendar days from the date the application is received; the contract will be issued with the better of those in effect on the date the application or funds are received. Guaranteed renewal for term options will maintain the better of cap/rate throughout the initial 7 year term. To receive at least the rates and/or caps shown, all required application paperwork is to be received on or after the rate effective date above and the contract must be issued within the applicable rate lock period. If the contract is issued outside of the applicable rate lock period, the contract will receive the then current rates.

Fixed indexed annuities (“FIA”) are long-term investment vehicles designed to accumulate money on a tax-deferred basis for retirement purposes. Upon retirement, FIAs may provide an income stream or a lump sum. If you die during the accumulation or payout phase, your beneficiary may be eligible to receive any remaining Contract Value.

An FIA is not a registered security or stock market investment and does not allow direct participation in any stock or equity investments, or index. The index used is a price index that tracks market performance and does not reflect dividends paid on the underlying stocks. Indices are typically unmanaged and are not available for direct investment.

Your annuity may be subject to a premium bonus death forfeiture based on your age. For issue age 64 or younger, you will not receive any unvested premium bonus if you die within 12 full months after the annuity is issued. Please consult your financial professional for specific details regarding your situation.

FIAs provide the potential for interest to be credited to the annuity, based in part on the performance of the specified index, without the risk of loss of premium due to market downturns or fluctuation because of a contractual floor.

**Guarantees are based upon the claims-paying ability of AuguStar Life Insurance Company, a member of the Constellation Insurance, Inc. family of companies. Guarantees do not apply to the investment performance of any chosen index.**

Product, product features and rider availability vary by state. Not available for sale in the state of NY. Certain features may vary by broker-dealer.

Early withdrawals or surrenders may be subject to surrender charges. Withdrawals are also subject to ordinary income tax and, if taken prior to age 59½, an additional 10% federal tax may apply. Tax rules require that withdrawals be taken first from any unrealized gain in the contract. Federal and state tax laws applicable to this product are subject to change. You are encouraged to consult your personal tax adviser for further information.

Guaranteed renewal for term refers only to Index Interest Options that guarantee the initial cap and participation rate for the Initial Guarantee Period as shown in the Contract. It does not mean that renewal rates are guaranteed after the Initial Guarantee Period. Any Renewal Guarantee Period, if offered, is a separate contractual feature.

There is no additional tax-deferral benefit for contracts purchased in an IRA or other tax-qualified retirement plans because such retirement plans already have tax-deferred status. An annuity should only be purchased in an IRA or qualified plan if the contract owner values some of the other features of the annuity and is willing to incur any additional costs associated with the annuity.
