LUNARLOCK PRIME MULTI-YEAR GUARANTEED ANNUITIES

Current growth rates

Building up your nest egg with a LunarLock℠ Prime annuity is a great idea!

That's because it will guarantee a set amount of growth each year, and our current growth rates are presented below.
Your growth rate will be based on your starting account value and which product you choose. **Product features and crediting rates may vary by firm or state, and not all options may be available through all firms.**

If your starting account value is $100,000 or more

Product	Growth rate is guaranteed for. . .	Annual growth rate with MVA*	Annual growth rate without MVA*
LunarLock Prime 3	3 years	4.75%	4.65%
LunarLock Prime 5	5 years	5.50%	5.40%
LunarLock Prime 7	7 years	5.50%	5.40%

If your starting account value is less than $100,000

Product	Growth rate is guaranteed for. . .	Annual growth rate with MVA*	Annual growth rate without MVA*
LunarLock Prime 3	3 years	4.55%	4.45%
LunarLock Prime 5	5 years	5.30%	5.20%
LunarLock Prime 7	7 years	5.30%	5.20%

How long are these rates valid?

Rates are subject to change at any time. For inbound 1035 exchanges and direct transfers, rates are locked for 60 calendar days from the date the application is received; the contract will be issued with the better of those in effect on the date the application or funds are received. For all other cases, rates are locked for 14 calendar days from the date the application is received; the contract will be issued with the better of those in effect on the date the application or funds are received. To receive at least the rates shown, the application and all required paperwork must be received within the specified number of calendar days and prior to any subsequent rate change.

What happens at the end of the guaranteed period?

When each guaranteed period ends, you have the option to elect a new interest guarantee period equal to the previous period duration. If you do not make an election, it will automatically reset to a 1-year Interest Guarantee Period for the remainder of the contract.

* MVA (Market Value Adjustment): An adjustment made to the amount you receive if you withdraw more than you're allowed each year. MVAs only apply during the surrender period. An MVA can increase or decrease the amount of your withdrawal depending on whether interest rates are higher or lower than when you bought the annuity.

Guarantees are based upon the claims-paying ability of AuguStar[SM] Life Insurance Company, a member of the Constellation Insurance, Inc. family of companies.

Product, product features and rider availability vary by state. Not available for sale in the state of NY. Certain features may vary by broker-dealer.

Early withdrawals or surrenders may be subject to surrender charges. Withdrawals are also subject to ordinary income tax and, if taken prior to age 59½, an additional 10% federal tax may apply. Tax rules require that withdrawals be taken first from any unrealized gain in the contract.

Federal and state tax laws applicable to this product are subject to change. You are encouraged to consult your personal tax adviser for further information.

There is no additional tax-deferral benefit for contracts purchased in an IRA or other tax-qualified retirement plans because such retirement plans already have tax-deferred status. An annuity should only be purchased in an IRA or qualified plan if the contract owner values some of the other features of the annuity and is willing to incur any additional costs associated with the annuity.
